Len,

The following are the comments from one of our most vocal members:

"I want to tell you that yesterday's seminar was one of the best I have ever been to. We all came back to our offices and worked till 7:00 p.m. to get with the new program. I am still reorganizing it for I want to set an example to others of how this system really works. Your presentation and style were superb and the day flew by. So thank you. It was well worth the money we paid."
